

## The unified mind.

Session nr 18 of 18 November 2019 – English translation – Original Dutch.

**Wivine:** This is a report of a bilocation with a lot of information. Since end of 2018 the main international group has been split up into small groups that gather around a Light anchor in the house of one of the group to meditate together. They can gather physically in that place or by bilocation. Since June 2019 each subgroup has been asked by the Melchizedeks to organize a bilocation to a country to assist that country.

It is through their group meditations and the bilocation's to countries that they are taught. From each group meditation there is a report as well as of each bilocation towards a country. It is impossible for me to share everything but from now on I will put more on the website.

There will be no more sessions as there have been the last 9 years. Everything has been said, "The Way" is described, it's up to you to pick it up and put it into practice. Putting into practice is something else than reading about it. By reading alone you will not get far, it is a lure; that's what they want you to believe and it will put you in confusion. Go to the Source.

If you write to me don't waste my time enumerating what you have read as books, websites you visit, the transmitters you worship or the types of religions you followed because I close the door immediately.

On the other hand, if you dare throw all you have learned through reading in the waste bin, that you are not afraid to roll up your sleeves to help us in our work and learn from experience, by helping your brethren and the planet, I will listen to you. I will give you the basic means that you have to develop.

And no, I will not give you my email address. Jesus and the Melchizedeks will help you find me if you are sincere.

## **SPAIN.**

### **Bilocation on November 16th 2019.**

Project of Bernardo (*Spain*) –Placencia group nr 1.

#### **Foreword by Bernardo:**

I wanted to organize a bilocation and I started by asking for a country during my meditations. "Spain" was the answer. I didn't believe it. I thought it came from my head. I kept asking and looking for other countries until I was completely blocked. I didn't know what to do. Was it Spain anyway?

I went in meditation to ask for confirmation.

I received the following:

*Living in DIVERSITY means receiving the ability to learn tolerance and respect, which leads to UNDERSTANDING and LOVE.*

*God lives in everyone's heart. However, God is not passive. He helps and gives everyone the opportunity to experience and learn to transmit love to others. It does not just happen on a personal level. It also happens to the people of a city, a country and the world (all of humanity).*

*Spain is a country with great cultural and religious diversity and both are respected.*

*Spain is a strategic place as a crossroads of cultures and religions.*

*What is happening in Spain is very good. There are important lessons to promote tolerance and coexistence. Even the difficult political situation in Spain is helping the country to heal the wounds of the past.*

*Lessons from the experiences in Spain will benefit other countries in which such situations occur or will occur.*

Spain was confirmed and why. Now I had to find the places for the bilocation and went back to meditation. I thought I had found the right

places and when it was ready I sent everything to Wivine for confirmation because it was my first bilocation.

Bernardo.

**Wivine** : The preface was fine. The wisdoms were really received through meditation and **did not come from what he had read**. But I knew immediately that there was a problem with the locations. Something had gone wrong in the communication between him and the Celestials or the communication had been insufficient. Or something else was happening. I then decided to go in meditation myself with the following question:

**"My" little God ", what does Jesus and the Melchizedeks want to accomplish in Spain?"**

**The answer :**

What struck you the most when you travelled through Spain all these years? What do all the villages and cities have in common, apart from the trauma of the civil war between communism and Francoist fascism, which took place in the early 20th century before the Second World War? ?

*Wiv: I travel since 48 years in Spain, since I was 19 years old. I visited many places in that country and still have to discover much more.*

*It were the festivities of "Los Moros y Cristianos". Of course! They reenact the invasion of the Moors in Spain, who are then expelled by the Christians. A historical fact that happened about 800 years ago and is still commemorated each year as a major victory of Christians over Muslims.*

*A geopolitical war disguised as a war of religion to obtain the support of the people who must deliver the fighting forces.*

*Same scenario with the crusades towards Jerusalem, and later with other wars between Christian religions in Europe. A similar scenario is now played by IS, which was authorized to establish a Muslim caliphate by those who supported them and who obviously needed fighters (army) to establish their caliphate.*

We work first at the individual level, then we expand to countries and continents. What is happening now at your individual level to achieve "**Unity consciousness**"?

The male and female polarities are developed and **unified** and this happens at different levels:

1) On the physical level :

- the masculine and feminine parts of the brain are united at the physical level. If necessary, the female part will be more activated for the two halves of the brain to work together, in unison. This translates into a change of mind (intellect-thinking) with as base your electro-chemical brain and heart.

- Electro = transmission of messages crossing the nervous system via neuronal chemical emitters

- Chemical: orders are also transmitted by the endocrine glands of the brain, heart and thymus (throat) via hormones. A physical connection between the heart (love) and the brain (intellect) is created via these hormones.

As your **LOVE** for God and humanity grows in your heart, you get to silence your ego and diminish your quest for performance to impress the gallery, your heart will gradually become the **dominant mind, superior** to the brain.

2) The **unified mind** (male and female) is gradually brought to a higher energy frequency than the physical.

You are now uniting the male and female mind in yourself to bring it to a higher spiritual level.

This is symbolized by two equilateral pyramids whose bases unite in the brain.

The top of the male pyramid is at the level of Chakra 7 and well above. Do not limit it to the top of your skull.

The top of the inverted female pyramid is located in the heart.

The two bases meet with their three points in the brain.

The prominent tip of these bases is at chakra 6 and the other two points are at the back of the head between the two ears.

Keep this image in mind.

We will now do the same thing in Spain as in your brain and your heart. We will unite the feminine and masculine mind pyramids.

Place the torso of a person in profile on the map of Spain that you have in mind, with the nose towards the Mediterranean. Do you see it? Yes !

Take Madrid as the center of the platform where the bases of the two pyramids meet.

Chakra 7 is now at the foot of the Pyrenees, approximately in the middle of the width of this mountain range.

Now trace a straight line from Madrid to find the location of Chakra 6 on the Mediterranean side.

Now trace a line from Madrid to the Atlantic side to find the other two points behind the head, behind both ears.

Start from Madrid to form a straight line from chakra 7 to the heart that will be located near the border of Portugal.

Start and return regularly to us for confirmation.

Remember also that :

- We implement the knowledge of the **Supreme Mother Goddess** on your world by connecting you directly to Her. She was known before.
- That the intention is to introduce religious tolerance in the world and unity among all ethnic peoples.

From Spain, we will later connect Africa to Europe on a spiritual level, then Europe to Eurasia via Russia. Some of your groups are active in Asia, others in the Middle East and others in Europe and the Americas.

If each subgroup follows correctly our advice, then we can implement with you another part of the plans of Jesus and the Universal Father to bring your planet to the state of Paradise or Light and Life.

End.

## **BILOCATION**

**Bernardo** : Following these guidelines we will do 5 places :

**1. Aguerö (chakra7) –autonomous region **Aragon****

Located in Huesca province. We will gather above these strange old mountains.

**2) Tito Bustillo Cave** –autonomous region **Asturias** –(*point behind left ear*) –situated right of Gijón, near the village **Ribadesella**.

Prehistoric cave, once inhabited by humans. These caves, known for their wall drawings of animals, plants and humans, are believed to be over 33,000 years old.

It is one of 18 prehistoric caves with mural paintings from northern Spain, grouped under the name *Altamira Caves* and listed as a UNESCO World Heritage Site. It is one of the most important prehistoric painted caves in the world.

We will meet here at the entrance of the cave which is higher up in the mountains. We will be brought from there where we need to be.

**3) Cave de la Peña de Candamo** autonomous region **Asturias**

*(point behind right ear) – situated left from Gijon city. Near the village of **San Román (Candamo)**, at the mouth of the Nalon river.*

The cave is one of the finest examples of Paleolithic art from all over Europe.

We can gather here around an old residence of lords, the Palacio de Valdès, in the **village of San Roman**. The cave is somewhere in these mountains and we will be taken from there to the exact place.

4) **Elche - autonomous region Alicante on the mediterranean sea.-**  
**chakra 6**

### **Basilica de Santa Maria.**

#### **We will meet here in front of the Basilica.**

It is a 14th century Catholic church dedicated to Mary, built on top of an important and large mosque of the Muslim era. Mary, as the mother of Jesus, is known to both Muslims and Christians. She is highly regarded in both religions.

Each year, they play a drama of the Assumption of Mary: the **Misterio de Elche**. The origin holds a bit of legend and it is believed that this liturgical drama began in the Middle Ages.

It is quite an event that depicts the death and resurrection of Mary, the mother of Jesus. It is played every year in August and lasts several days. It's really spectacular and took a long time to be recognized by the Vatican. Rome sees in the worship of Mary a competition with their drama: the death of Jesus on the cross (*male against female*). But Rome was

never able to suppress it; it's not that they didn't try. It is now part of the Oral and Intangible UNESCO World Heritage since 2001.

**5) Badajoz – capital province Badajoz of the autonomous region  
Extramadura. The Heart.**

The city and the region have been inhabited for tens of thousands of years.

Also by the Romans and the Visigoths (*Germanic people whose capital in Spain was Toledo from 411 to 720 AD, one also speaks about the Kingdom of Toledo which extended almost all over Spain*).

Then came the Moors (*Arabo-Berber powers*) from 711 AD, which were finally repulsed by Roman Catholics in the 12th and 13th centuries.

Many Muslims and North Africans continued to live in Spain after the change of power. It is only in the last centuries that they have been forced to become Christians or to return home.

In the time of the Moors, Christians could confess all over Spain their faith in mosques, this lasted even after the Moorish kingdom El Andaluz was destroyed. It was only later that many mosques were destroyed and replaced by a cathedral or a Catholic church.

Toledo has also enjoyed a period of great prosperity in the Muslim period in all areas; where Moors, Christians and Jews lived side by side and worked together in the field of science and religious research. It did not last. Nevertheless this proves that it's possible.

After the 16th century, the province of Badajoz saw all great European powers pass: they were regularly under the yoke of Portugal, then of Spain, under the Habsburgs, the French and the English. They have survived many wars and all these cultures, religions and foreigners have left their mark.

We will gather above this plaza and from there the celestials will place us where they decide.

End.

### **Report experiences bilocation Spain.**

#### **17 participants.**

**B : 1h03**

This bilocation was a great responsibility and honor for me because I was representing my country. Before I started, I prepared myself as usual and thanked all celestials, all helping souls, as well as my "little God" and Jesus for allowing us to help.

During the entire bilocation my chakras 4, 6, and 7 were very active, my heart was beating hard and fast. I asked why my heart was so active at this moment and received the answer that it is related to the work of our "Little God".

I don't remember exactly what happened in each of the five places during the bilocation, but I can explain what I felt in each of them.

PLACE-1: High energy, connection point.

PLACES 2-3: Liberation of souls that were locked in caves, cleaning of entities and dark egregores.

PLACE-4: Femininity, tolerance and respect.

PLACE-5: Diversity, coexistence in harmony between religions.

I felt that these five points were united through the unification of the two inverted masculine and feminine mind-pyramids, at country level, which will lead us all to **UNITY**.

I left the bilocation with a great sense of peace and joy, with the certainty that the work planned by the celestials had been done.

**V.:** 1h15

Arriving at the 1rst place, I saw from afar the big rock. I was like in a savannah. Approaching the rock, I saw a large black shadow in the middle of the rock. I fell asleep and then nothing.

**E .:** 1h

At first I felt carried away to the place of appointment, I saw many people and lights, then I don't remember anything.

**Er.:**

- 1) Report group meditation from the day before at the temple of Placencia via bilocation. - 45min

Arriving on my seat in the temple for the meditation, I saw immediately Light beams flowing down like "living water" along the beams of the temple into the heads (chakra 7), of the people present.

Looking up to the ceiling, I saw once again Jesus with rays coming out of his heart at the level of the central hub.

When this "living water" flowed through me and reached my heart my arms opened up naturally. I felt a "loving energy" diffusing along my arms to the tips of my fingers going to the person on my left who was doing the

same and passed it on, in a circle, to everyone in the temple; to come back to me in an enriched way that each time gave me more well-being and such inner quietness that I even stopped breathing.

***Placencia temple ceiling (there are 12 beams and there is a chair under each beam, each participant in the group meditation is given his own seat where he/she will sit via bilocation).***

Along with this inner peace I was also increasingly aware that, regardless of our ethnic origins and cultural differences, we were a **united family** with a "**consciousness of unity**" in the service of Jesus.

Unlike other times I didn't go into deep meditation, I stayed all the time in this modified state of consciousness, "bliss-happiness", or I savored this peace, this inner intimacy and this widened consciousness. I could have stayed like that for hours, it was so nice, but I received a signal to get out of it before being canonized.

2) Report bilocation Spain : 1h02mn

The theme of this bilocation appealed to me, I prepared meticulously this bilocation by visualizing in advance the places, their situations and their functions on the map of Spain.

So I went to Aguerö at the foot of this mountain that I know for a long time due to my visits to Spain.

Although it was already dark and cold I saw the place as if it was daylight and I found myself above these rocks in a large circle around a column of light coming down from the sky and in which I saw briefly an image of Jesus.

I thought this "Light" would enter my chakra 7 like the day before for the purpose of this bilocation, but I lost consciousness. A little later I found myself before the cave entering the basement, and later before the basilica Santa Maria of Elche with no memory of having participated in anything else.

That's all. Considering the beautiful meditation I did last evening where "**Unity consciousness**" was very present between me and the others, I came out a little frustrated, because despite I know that I don't have to decide anything on my own, I imagined maybe a little subconsciously and wrongly, that I was going to deepen and broaden this *unity consciousness* at the level of a country.

*(Wivine: Who says that feeling this "consciousness of unity" with a small group must be different from the feeling of "Unity consciousness" with 50 million people or 7 billion? Jesus showed you on a small scale how this works, how it feels and how it will work out globally.)*

**Ja.:** 41 min.

I asked for a glimpse of what we were going to do and after a while things became clear to me. Spain is truly a peaceful and tolerant country as described. **I too can apply more tolerance and peace in my life.**

I felt activities all over my head and also in my heart. I saw a direct connection from my chakra 7 (*above my head*) to my heart. I felt that in the future, I would not use my chakra 6 anymore to send Energy but that the Energy would exit through my chakra 7, which will be directly connected

to my heart. That I would also learn to send Energy through my heart through further training.

*Wivine: He speaks here of the passage from the use of Trinity Energy through chakra 6, which enters through chakra 7 and comes from outside, towards the **use of the Adjuster's inner energy that dwells in you**. Once the Adjuster Energy comes out of your chakra 7, chakra 6 is no longer used (only if the Adjuster decides it during bilocation's for certain tasks), and neither the other chakras. The chakra system, which is a **temporary system**, disappears.*

*The next step is to learn to send "**love energy**" through the heart (not chakra 4).*

*Then, when the connection is fully realized between chakra 7 and the heart, which happens as a result of the inner unification of the male and female mind, comes the next step:*

*The third step is a **Combined Energy** that comes out of you, out of the complete trunk (from head to heart) to be sent towards a goal. No chakra's are used anymore.*

***Angels and Midwayers** guide these people in all these steps because it is too difficult to describe. This must be experienced at a personal level.*

I considered this vision as very beautiful and useful for my further development. I experienced this bilocation as peaceful and I kept a good feeling from it.

**W.** : 1hr.

When I arrived at the mountains of Aguerö village, somebody came to me and told me that they would show me something. We were going on a trip together and I had to tell at the end of the trip what I had observed.

We visited all the places where this bilocation was directed. I also went to the caves and I was able to look back in time to see how people lived there long ago.

What was characteristic is that I saw how people lived in peace and harmony in many ways and places, even though they had different religions and cultures. There was acceptance, tolerance and harmony and the result was very beautiful.

Everywhere dragons came forward and turned against us. Fire was coming out of their nostrils. They were the thought-forms of discord, disunity of **Unity consciousness** and the spirit that turns people against each other, fueling their feelings of superiority. Each time this led to chaos, struggle, sadness, genocide and murder.

We irradiated the dragons with energy and they contracted but did not dissolve. The energy that nourishes separation, the feeling of superiority and the oppression of others is still present everywhere.

It made me realize again to do everything possible to live my life in this **Unity Consciousness**.

**J.** :36 min.

Before the bilocation I already had some activity at chakra 7 which was spinning.

I imagined our first meeting at Aguerö - ("chakra 7") where we created our 1st Light Anchor.

Then I arrived at Tito Bustillo Cave; then I was at the Cave of the Peña de Candamo and finally in Elche, Basilica of Santa Maria (chakra 6).

We created a Light anchor at each place. My chakra 6 was active. I saw a bright line connecting these 3 places.

Then we met in Badajoz - "The heart " to create our last Light anchor.

I had the impression that a kind of "Super Light Anchor" was shining over Spain to bring together all these peoples separated by wars and passed conflicts. This "Super Light Anchor" connected all the points we visited and

was created by our Celestial Friends and some of us; with the help of Adam and Eve and perhaps their newly arrived children.

**J.P.:**

I found myself above these strange mountains; my chakra 7 began to move up and down, from top to bottom, and my head swung from one side to another, in a good atmosphere. After a time of sleep I woke up at the entrance of the cave where I felt a flow coming in and out through me.

Suddenly I am at the Palacio de Valdès in San Roman (Peña cave) to go then to the mountains above the village, feeling a good atmosphere.

At the Basilica of Elche, I felt also good energy that was increasing and spreading in the environment, my chakra 6 was working a lot.

In Badajoz above the Plaza I did not feel much, even a little weakening.

**C.:** 55min

I don't remember anything, but in the beginning there was lots of pressure on my chakra 7 and behind my eyes. I am always thankful that we can be part of bringing our Planet into light and life.

**M. :** 30min.

"I could not concentrate."

**N. :** 42min.

"My chakra 7 and 4 were very active."

**F.:** 40min.

"I don't have memories."

**R.D .:** 62min.

I could not concentrate because of my thoughts.

**Ju. :** 60min.

I felt that my chakra 4 was very active. I saw a large crowd on a mountain full of smoke, and all were dressed in white. I have no other memories.

**R.B.:** 1h14min.

During all the meditation, my body was always hot. This heat became stronger each time I moved to another place. This is the first time I felt this during a bilocation.

Sometimes the heat was in the head. sometimes from head to heart. Sometimes my whole body. Sometimes my chakra 6 became very hot. But after the bilocation everything went back to normal.

Arrived at Aragon, I saw on our place of rendezvous a transparent globe of which you could only see the meridians. After a few moments I moved to the first cave in Asturias. In front of the cave, I saw a light in the form of our "**Nebadon cross**" and each of the four edges shone more than the body of the cross.

Then I entered the other cave where I saw a lot of boxes. Then the cave filled with a kind of light-colored mushroom that kept growing. I decided to send energy through my chakra 6 to stop its growth.

Then I left for Alicante.

I do not remember what I saw in the last two places but I'm sure I was there: I felt my chakra 6 and my heart.

At my awakening. I saw a fish-shaped form that connected Alicante with the Asturias. Its color was sky blue. And that's all I saw.

**S.B. :**

I was absent for a long time but I took part this time in the bilocation of Spain. I saw a big river with very clear water, like the water of a waterfall. There were a lot of black stones next to a lake with clear blue water where I was alone to enjoy peace and quietness.

*(Wiv: one of the two caves is near a river or rather near a large river mouth on the sea that can give the impression of a lake.)*

**Wivine** : 55min.

Aguerö: I arrived at the first place Aguerö - I placed myself at the top of the rocks. It was pleasantly cool. I looked around until we, us and many others, formed a circle higher up in the sky.

The circle extended beyond the French Pyrenees to Lourdes (*Marian apparition and pilgrimage place in France since 1858*).

Lourdes and Aguerö were on the circumference of the circle. The circle was very wide and the created Light anchor was in the center, in the mountains of the Pyrenees. It was created in two stages:

- We first created a traditional Light anchor with other people and Midwayers. (*other people = I mean here that there were other human earthly souls than those of our group.*)
- Then, a second Light anchor was created above the first one by Aaron, Luova and Jesus. They formed an equilateral triangle in the circle in which they created a larger Light anchor that was directly connected to **the Supreme Being**, the Universal Mother Goddess of all peoples and universes.

From there we left for the region of the ancient caves with their mural paintings:

1) Tito Bustillo Caves in the region of Asturias.

When I arrived, I entered the cave which was a little higher up in the mountains. People were waiting for me. They were from very ancient times and I could not see their clothes. It was as if they did not wear any or were they in morontia appearance ??

They had long spears in their hands. Probably a sign of notoriety. Although we didn't speak with physical words, they made me understand who they were. They were humans who had climbed the

morontia-spiritual ladder to a very high level. They had postponed the fusion of their morontia soul with their God Fragment because they wanted to stay on earth to protect their people and preserve the knowledge of the **Law of ONE** - of the **Unity consciousness** for future generations. They were about five.

I knelt in front of them and bowed my head to show respect for these "Wise men". A transfer of knowledge was made (*of which I don't have conscious memories*) and I thanked them. I don't know who else was there during this transfer. I was certainly not alone. After this event, I got up and thanked them for their trust.

One of them spoke :

You will first preserve this knowledge and put it into practice yourself until it can be gradually transferred to all humanity. This is not possible now for several reasons.

We will continue our journey to Paradise as **first stage spiritual creatures** .

You will later understand how it is possible for your soul to cross all morontia worlds while living in a physical body during a long human life. To then leave this physical world with your God Fragment and fuse on the **1st morontia Mansion World**.

Then head straight for **Salvington** - capital of Nebadon - to be qualified as a full-fledged first stage spiritual creature by **Jesus, Christ Michael**.

These certificates will allow you to leave your local universe of Nebadon to continue your journey to Paradise through the spiritual worlds of this Superuniverse nr 7 Orvonton.

Suddenly they were gone and I got up to go to the next caves.

## 2) La Peña de Candamo Caves- région Asturias

Was it in this cave or in the other, I don't remember anymore. What I do know is that somewhere, a huge dark creature was removed from the ground or cave and, after irradiating it with a lot of energy, it was taken to its judges.

I remember that I could not enter these ancestral caves. I was stuck at the entrance and everything went dark. My body was undergoing changes, I could feel it, it was not nice but bearable. I felt my epiphysis and my pituitary vibrate together inside my skull. I had the impression that my body was dematerializing.

It was like moving from a physical status to a different status. I already experienced this several times over the years during meditations. I have always been told that these were necessary transformations without further explanation.

It's different from feeling electricity in your arms and legs, where you sometimes need to move the limbs to calm them. It's not that. It lasted a very long time and I waited wisely for the end.

Elche :

When I finally felt normal again and that inner tension was gone, I thought of Elche. I asked if we had already been there?

I was shown Elche through a kind of telescope as if I was far away. I saw that the city bathed in soft white celestial light (*though it was already evening there, so something had happened in which I didn't participate.*)

Badajoz : I left for Badajoz in the region of Extremadura.

Here, same scenario as Aguerö. Our circle of humans and Midwayers grew steadily to reach Fatima in Portugal (*also a place where there was a Marian apparition in 1917*) which became part of the circumference of the circle with Badajoz. The Light anchor created was in the middle of this circle.

After the disappearance of all darkness, the second part or 2nd Light Anchor was created by Aaron, Luova and Jesus who formed a triangle

within this huge circle. A giant Light anchor directly connected to the **Supreme Being** was created above the 1st one.

Then they raised me much higher so that I could see all of Spain.

A multidimensional geometric figure of spiritual energy had been created to connect Lourdes to Fatima. This produced a luminous symphony throughout the Iberian peninsula (*Portugal and Spain*) until the foot of the French Pyrenees from the Mediterranean to the Atlantic Ocean, at the height of Lourdes-Tarbes. Dazzling! I cannot say which geometric figure it is. I even suspect that it is a geometrical figure that we don't know yet in this world.

Then I woke up slowly. It was dark in my room (evening) and the first thing I did was rub my hands to see if I still had a normal physical body. And yes, everything was normal. I waited a moment to get up until my dizziness passed. It was accomplished.

End.
