

Return Maya Cosmic Masters.

Part 49 – 2011.

Session of 7 September 2011 - recorded - English translation - Original French.

Place : M.V. in Haggenau - France at our hotel.

Received by Kathy.

Visitors : Malvantra and Maltucia Melchizedek

Lanaforge, Sovereign of our Planetary System Satania.

Malvantra: It's a long time since we could communicate and meanwhile many things happened; especially in the destruction of the dark network of Caligastia and Lucifer. Your job in Germany and Austria, including Ingolstadt - Dachau - Mauthausen, taught us much. We were able to take things in hand differently.

Mauthausen was very difficult, and what we have found is indescribable but we were already able to free many. The conditions in which these human souls were detained is unimaginable and there are still others there in these conditions of loss, despair and horror. We will therefore not describe it. All we want to say is that their release is done step by step and that every little step helps to liberate hundreds of thousands of souls and life forms created by Lucifer and Caligastia.

What is regrettable is that the celestials who participated are the most difficult to convince of our goodwill. That they will receive forgiveness, rehabilitation, a reorientation and that they will not be punished. Of course, they will have to prove their good will. We will not release them in the universe in such conditions and the mental state in which they are but we have no intention to punish them in any way. Many are here around you in this hotel room where nature is so beautiful to listen while I am talking to you. This message above applies especially to them.

The situation was very different in Dachau: they were waiting for us. You've seen the large open tower where you have done your meditation which was dedicated to Christ to help all souls scared to die. Following offices and masses that were done there, many expected their release. Much love has been given to them and more than a million followed immediately the Light, especially human souls and some celestials and those life forms that were around the souls.

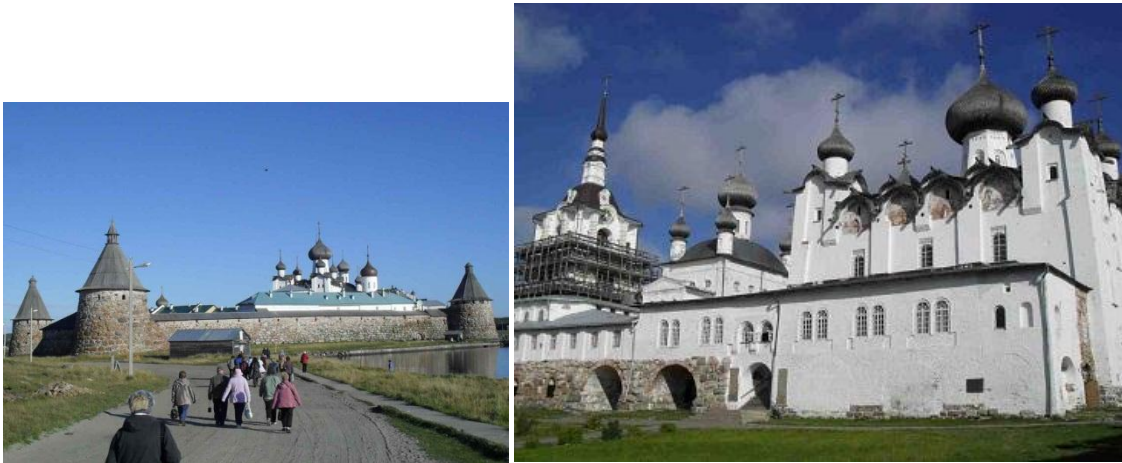

Ingolstadt was a reactivation and cleaning of a former Light anchor that has been placed there 10,000 years ago by the descendants of [Adamson](#) and [Ratta](#). Its beneficial effects are already felt in the region and as Ingolstadt is located only 50 miles from Dachau, it also influences that region.

Concerning the program for France and Spain: we won't change anything right now. Go to Carnac in Brittany, relax a few days and create the Light anchors in the places you were asked. Do a meditation around one of these Light anchors with those who will be present and who wish to hear our voices. Thank you and goodbye.

Lanaforge: Hello little girl. You have done good work in Russia. We know that you have had some difficulties during your trip but despites all that you came back safe and well in your regions. These islands have always been holy since more than 50,000 years, even before the time of [Adam](#) and [Eve](#) and [Adamson](#).

It's from the time after [Andon](#) and [Fonta](#), the days of ancient migrations to these islands, to the Baltic countries of the North, to England, Ireland and French Brittany; little remained of their religion and culture of origin. As you have discovered many of these Light anchors are still very active and were created by different systems than those you use. They are doors

through which we pass to communicate easily with human beings who are of a more spiritual nature and seeking God.

Solovky Orthodox Monastery with several churches.

The place where we went into meditation in the monastery.

The monastery was built on one of these Light anchors. These islands were the Spiritual Lighthouse of Russia and the Baltic regions for a very long time, until the darkness came to destroy, make dirty and contaminate some of these sites. Your visit and what you have helped us to do will reactivate everything.

Another island of the Solovky Islands filled with these kinds of "stone circles" with a small Orthodox Church.

The boat we took

with a group of Russian tourists to get to this small island.

{Note Kathy: all these people were very nice..., they came to us to talk... but we did not understand Russian. It was only the hotel staff that spoke English. I've never met so many young blond women and men, a kind of blond we don't see in Belgium. These are very cultivated people, perfectionists, intelligent who do not like to make mistakes. I liked them but I don't go back to Russia without a Russian interpreter, it's frustrating not being able to communicate or even read their signs at some airports... - what did we panicked sometimeswhen everything was in Russian... but people in airports help

you well and there is always someone who speaks a bit English. Oh! What an adventure!}}

Another « stone circle ».

The Spiritual Light of the [Universal Father](#), the [Eternal Son-Mother](#) and the [Infinite Spirit](#), as well as [Christ Michael's \(Jesus\)](#) will arise and shine again over Russia and the Baltic regions of Sweden, Finland, Norway and Denmark.

This will become a place of pilgrimage, a tourist place which will attract many people to find spiritual resourcing. There is a lot of work to do in Russia because quite a lot of places have been soiled by wars, especially during World War II by the Nazis and afterwards by the totalitarian Bolshevik regime. There are a lot of dark wounds to clean, but at least there's a great beacon of Light shining now over this entire country and its people which were always very religious and believing.

Thank you my children for the work you all did, to those who were there and those who were unable to join. Thank you for all the work you have already done and still will do to help. Continue like this, we are close to you, you have all our help and everything you need to continue. Then do so. You'll have more sun in the South; you will prefer it to the northern

countries despite the fact that we offered you some warmth and Sun in those regions too.

Until next time, my friends and thank you on behalf of all of your invisible friends for the work you do for us. Good bye.

Maltucia: I thank your entire little group very much for all the work you have done. Rest well before you start with the South of France and Spain. We will stay in contact. Good bye.

END.
